THE QUESTION OF PARKS. CLEVELAND SHOULD HAVE THEFE PARKS

Two on the East, One on the West Side. Favoroble Report of Committee on Parks.

On the 26th of September last the City Council appointed a committee of six members, to take into consideration the expediby all classes of our citizens, and the shortsightedness of those in authority of the last
generation, in not reserving land to be converted into ornamental and aesthetic uses,

most respectfully submit the following report:
Your Committee would, before entering upon the details of this report, speak of the extent of the territory covered by the city of Cleveland, of its past remarkable increase in population, and of its future prospects.
The city covers an extent of territory greater than that of many cities in the filmon with a far larger population; its length from East to West being 5 and 5 100 miles; its average breadth is I and 1-10 niles, covering an area of seven square miles. Its population at different periods has been as follows:

for the accommodation of this great stare population, our city has neither Parks nor Markets adequate to its wants. In these respects it is far behind most cities of its class. It is not necessary for your Committee to speak of the want of foresight in fence it in. Unfortunately there was not sufficient anterprite or liberality on the part of the Trustees to appropriate a few dollars to carry out this condition; consequently the land reverted to the donor.

Your Committee believe that the wisest reality that a now he adonted to remade.

Your Committee have given this subject their earnest and careful consideration, with a full knowledge of the financial ability of the city to meet the proposed expenditure, and they have come to the conclusion that it is consideration, that there Parks about he t is expedient that three Parks should b

stablished, with the location and extent ereinsft r specified: For the Lake Park—All the land situated north of Lake street, between Sensca street and the centre of ten-acre lot No. 137, and all the land north of a line that would be a ontinuation of the southerly line of Sun nit street, between Bank and Senecs streets whole containing about seventy-sever

For Park in the Eastern Section of the liy-Fifty acres in any suitable location stween the following named streets: Hadson on the west, Wilson avenue on the east, Cedar street on the north, and Kinsman street on the south.

The following are some of the reasons that First, It is generally conceded that if bu

additional Park is to be established, i wild be located on the East Side. In the event, owing to the peculiar topographical formation of the ground on which the city i situated, and the distance from the ex-treme western limit to the eastern side, this onveyances. Under these circumstances your Com

mittee deem it expedient that a Park be es-tablished on the West Side, located in ac-cordance with the recommendations em raced in this report.

Second, That for the purpose of acc

selating the business and central portion f our city, and also with the intention of flording a place where "the people" cabtain an unobstructed view of the Lake. deemed of the most essential important at a Park should be also established o he Lake Shore, as herein before des Third, That owing to the great distance from the easterly limits of the city to the proposed location for a Lake Park, it would be inconvenient for the residents of the for mer section consisting largely of the work-ing class, to visit that Park often; and also owing to the fact that land in the eastern part of the city can now be purchased a a comparatively low price, and that severa gentlemen have already agreed to contri-bute the sum of ten thousand dollars toward the payment of the same, and that undoubtedly still firther amounts will be contributed for that purpose. The outley for such a Park will not be unreasonable, especially Recovered.—Two soldiers returned yes-erday from the State Home at Columbus to serday from the State Home at Columbus to ist in its vicinity. For the foregoing and scribed, in that section of the city. We are fully satisfied that it is universally the desire of our people to have provided nore Park privileges, especially one located

on the Lake Shore. Your Committee feel perfectly justified in making the foregoing recommendation on the following grounds: That the establishment of the proposed Park, more particularly the one on the Lake shore, will add to the beauty and attractive-uess of Cleveland to such an extent as to invite from abroad many, especially men of capital, who would make this city their future home, and add greatly to our tax dupli-
